From Brand: BIS Publishers : Street Style Memory Game before purchasing it in order to gauge whether or not it would be worth my time, and all praised Street Style Memory Game:

This new Memory Game challenges players to find combinations of young people with special characteristics and street-style clothing. These are beautiful photographs of people from all nationalities, photographed in the streets of Amsterdam. For the game, the pictures have been cut in two. Based on their clothing, their attitudes, and the backgrounds of the people in the photographs, players can join the slightly enlarged faces with the rest of the bodies. Pairing off the sections is great fun; an excellent game for children and for anyone interested in street fashion or in search of a trendy gift.

"Not content to let the childhood memory rest in a storage box, its updated the challenge to new heights: Fendi platforms, to be exact."Nylon
