It is such a great mindless coloring book that calms the mind. The best part is the fun greeting cards in the back that can be colored and mailed off (e.g., "I don't know what I would do without you" with donuts on the front) 0 of 0 people found the following review

I bought this book for my mother. She had brain surgery in 2013 so I wanted to give her something that would make her think and create. Yes, it is only a coloring book to most people, but for me it was a life changing experience for the entire family. My mom, now 81, spends most of her time coloring the pages of this book and she enjoys all the compliments she receives from families and friends. Coloring is now part of our daily routine and I love the time I spend with my mom. So I fully recommend it!!
