Tony Moffitt : 'Striker!': Easy rules to play incredibly realistic tabletop soccer/football matches in miniature before purchasing it in order to gage whether or not it would be worth my time, and all praised 'Striker!': Easy rules to play incredibly realistic tabletop soccer/football matches in miniature:

1 of 1 people found the following review helpful. Sensible soccer simulation!By VacuumJockeyIt's hard to simulate sports in a boardgame, but Striker! does it pretty well. I understand that the author uses Striker! to teach tactics, and it certainly does very well at that. My one complaint would be that there are no league/tournament rules, but I suppose that it wouldn't be too hard to come up with your own ;) Perhaps in the second edition?PS: It is quite easy to set up a Striker table in roll20.net, if you and your friends are separated by geography...1 of 1 people found the following

review helpful. Striker! :Easy rules to play incredibly tabletop soccer/football matches in the miniatureBy DSK8306Having just finished reading Striker! I have to say I can't wait to start playing. The instructions are clear and to the point and I found them very easy to understand. The diagrams are a great visual tool and the side notes for coaches provides wonderful insight into how to play the game with strategic precision. Not only did the book rev up my excitement to play it provided solid advice that can be used when playing the game on a field. Striker! provides a wealth on information and I feel it would be a valuable learning tool to any team, player(s) and coaches. I highly recommend this book to anyone who is looking to play tabletop football/soccer in a competitive and realistic way. I would also recommend this to anyone who is looking to improve their play on the field. 1 of 1 people found the following review helpful. Striker!By JKBStriker! is a game that will bring out the fun and competitiveness of soccer/football right to your living room. Although you can use the figurines from Subbuteto, you can play the game by finding objects from just around your house which I appreciated because I do not have the figurines. He also provided alternatives if you did not have an 8-sided dice. Moffitt included an option such as using a deck of cards. I applaud the creativity so all can enjoy the game without having to spend a lot of money. The directions are very thorough and descriptive and examples were provided to enhance or clarify the understanding of the point that is being made. I also liked the formatting of the book - what I really liked was at the end - the at a glance summary for each component of the game. If you have a question while playing, you can easily go to the back of the book to get the answer. I look forward to playing Striker! and being able to break down the game and discuss strategy while the game is played. The coaching points are an added bonus. Striker! will enhance a players ability to better communicate while improving their understanding of the game which are great tools and skills that he or she can take to the field.

'Striker!' is a set of easy-to-understand rules for playing incredibly realistic miniature soccer / football matches on a tabletop. Each match plays just like a wargame, using Subbuteo sized figures or cardboard markers to represent players, and a couple of dice. 'Striker' can be enjoyed by two players, groups of players or completely solo! All you need to experience the game is a table. Fans of Subbuteo already have almost everything needed to enjoy 'Striker!' tabletop soccer / football. If youve ever wanted to capture all the thrills and tactics of the real game, the Striker! set of easy-to-understand rules are the perfect answer. The rules are so realistic, and so true to the game, they can also be used by every soccer / football coach as a powerful grassroots teaching tool. Written and created by an experienced football coach (and an experienced wargamer) these rules let you enjoy the thrill of every big match in your home in miniature! The Striker! rulebook has been deliberately low-priced to make it affordable to every fan that plays soccer / football, coaches, or simply loves the game.
