Missy Suicide : SuicideGirls: Geekology before purchasing it in order to gage whether or not it would be worth my time, and all praised SuicideGirls: Geekology:

0 of 0 people found the following review helpful. AlternativeBy Shall not be namedI've always thought the SG ladies were very interesting, I love the nonconventional look. I have alot in common with most of them, awkward, geeky, introvert, and highly tattooed. This book could use more text with the ladies, but it does let you know some insight. The pictures are very relaxed and being taken by different artists is great. The ladies are very free and uninhibited and the sets areare full of variety. The book makes a great coffee table conversation.0 of 0 people found the following review helpful. Five StarsBy dove13High quality.0 of 0 people found the following review helpful. Perfectly SG for the Nerds!By J.VanderhoefThis one is just as good as the other SG book I own and it's really great. Sexy, artistic very cool, NOT PORN. I really enjoy it. It's SG with a nerdy flair. Very nice!

The SuicideGirls are a collection of more than 2,500 pin-up girls devoted to changing your idea about what makes a woman beautiful ... and they are naked. Started in Portland, Oregon, by Missy Suicide and her friends in 2001, the SuicideGirls broke conventional notions of beauty and the pin-up girl ideal as defined by men's and women's magazines and the culture at large.This time around "SuicideGirls isn't redefining what it means to be beautiful or what it means to be a geek. They're celebrating the fact [they've] always been here, [they've] always been geeks, and

[they've] always been beautiful." "SuicideGirls: Geekology" casts the spotlight on the self-proclaimed geeks of the SuicideGirls populationthe video-game players, the comic-book readers, the Trekkies, and many other shining examples of the culture they're celebrating. There's something really wonderful about this book. There's something beautiful around the idea of showcasing girl geeks in all their glory: to go beyond the photos and find out that, to us, each piece of the picture means something. To find out how many hours we put into designing our cosplay and how attentive we are to the homages we create. We're not just playing dress up in a world we know nothing about. We were right there with it, helping to build popularity from the ground up: first in line, issue number one. Once a subculture of a subculture, women are now a full force in the geek community.

About the AuthorCombining her love of pin-up photography, music and art with personal ideals of female empowerment nurtured in DIY culture, Missy co-founded SuicideGirls as a place where a woman can be herself and her confidence, creativity and uniqueness are what defines her beauty. She has also started a revolution.
