I've enjoyed reading the infomercials that often start off the puzzle. Then there is this book. It is the worst word see puzzle book I have experienced. It provides title of movies, word phrases and names of celebrities but puzzles may choose any part of the name, title or phrase but the book gives no indication which one can be found in the puzzle. So you have to guess. It is so frustrating trying to guess whether the puzzle has a celebrity's first or last name, or the first or last word in a phrase or title. Where other puzzle makers put the word that they've put in the in the puzzle, in caps, this book does not. Perhaps they should look at the industry samples before publishing a book for the rest of us.0 of 0 people found the following review helpful.
