Guy comes through again. This short, but direct-to-the-point guide is just what I needed. From installing, to playing the game, he has everything covered. There is a lot of information about how to unlock special features, how to defeat or get around Bowser, how to collect bonuses, how to do well in Toad Rallies, and what it takes to build your Kingdom. All of the important information, straight, without a lot of fluff. Great illustrations. Lots of titles and subtitles. It is the type of guide that I love to use. Everything is easy to find so that I only have to read the parts that I need help with. These guides are the BEST! 0 of 0 people found the following review helpful. I'm really glad I came across this book. By Kindle Customer As a videogame lover who grew up in the 90s, I'm really glad I came across this book, because it brought back some awesome childhood memories. The book shows you how to install one of the most popular video games of all the time on your phone, and provides many tips, tricks, and instructions which will make your gaming experience truly enjoyable. 1 of 1 people found the following review helpful. The best SUPER MARIO RUN guide out there! By Reader Being completely unfamiliar with gaming, but reminiscent of the days when I played Super Mario on my Super Nintendo, I wanted to play Super Mario run on my iPad. Technology being what it is- I was not familiar with how to download, play or really get the most of this game. So I browsed through the available guides and this one is by far the most comprehensive and clear! It has pictures and arrows that make it easy to follow. It's also very well written and easy to follow.
