Stephen Young Ed.D. : Super Smart: 180 Challenging Thinking Activities, Words, and Ideas for Advanced Students (Grades 4-10) before purchasing it in order to gage whether or not it would be worth my time, and all praised Super Smart: 180 Challenging Thinking Activities, Words, and Ideas for Advanced Students (Grades 4-10):

0 of 0 people found the following review helpful. Disappointed but it's okBy jlinaresmxI was expecting worksheets that I could use right away with my students. This book just gives you ideas and activities that you still need to accommodate and re-write. Some of the activities are not for "super smart" or to challenge my HiCap students.. rather they are just simple activities that you can easily search online for free...4 of 4 people found the following review helpful. Some GoodBy CustomerI received this product a few days ago and have already started to implement some of

the activities into my 8th grade TAG classroom. My students have seemed to enjoy the quick challenges this book offers. The only negative I have is that the book in the picture and the description both indicate this book is for grades 5-12, when in reality it is for grades 4-10. Not too big of a deal, except that some of the challenges and vocabulary is too low for 8th grade students. You just have to pick and choose. 0 of 0 people found the following review helpful. vocabulary answer choices are circled and logic solutions are right underneath like a corrected paper By Steph Need to change product description to include that the answers are right there on the page, so you can't make copies, or mimeographs. Ex: vocabulary answer choices are circled and logic solutions are right underneath like a corrected paper.

Get the minds of bright kids jump-started with these exciting, motivational Super Smart brain challenges. Put the minds of bright kids in over-drive! Filled with 180 "activity-a-day" classroom warm-ups that include new, challenging vocabulary activities and critical thinking activities that push the limits, Super Smart will pique students' curiosity and tickle their funny bone. This unique book, designed to challenge the brightest kids, offers teachers and parents a fun collection of activities--logic puzzles, riddles, optical illusions, math mysteries, and thought provokers. These short, attention-getting mind stretchers serve to grab the students' attention and create a frame of mind and an atmosphere of fun, curiosity, or discovery conducive to getting kids off to a good start. There are three hooks for each day: a vocabulary word, a thought for the day, and a critical thinking hook, each designed to get students thinking and into a receptive mind set. Grades 4 10

Organized on a day-by-day basis, each page full of entries for mind-stretching are designed to quickly get students into a contemplative mindset. Ideal for schoolteachers, homeschoolers, and parents or babysitters interested in sharing a moment of brain-stimulating activity, Super Smart is a wonderful educational supplement. --Midwest Book About the Author Stephen Young, Ed.D, recently retired from a 35-year career as public school teacher and professor of education at Morehead State University (MSU). He holds bachelor's and master's degrees from MSU and Ed.S and Ed.D. degrees from Indiana University in Instructional Systems Technology. In addition to two novels in print, he is also the author of a manual for decision making via critical thinking and a CD of humorous storytelling. His hobbies include singing folk music, woodworking, and maintaining his Web site.
