Great posters of our boys!By BMM2018This is even better than I expected! The posters are a nice thick paper that won't rip and are great, high-quality photos. They only downside is that they are back to back, so if there are 2 you absolutely love that are on the same page, you'll have to get a 2nd book to be able to hang both (which is what I'm doing!).5 of 5 people found the following review helpful. If you or someone you know loves Sam and Dean buy this!By The Tiki LabI get that most of this stuff is automated through a computer system but seriously

when it's called a POSTER BOOK someone should be alerted to that so people don't feel obligated to spend 5 minutes considering responses to "How's it narrated?" or sh*t like that... More importantly the poster book was a present for my 15-year old daughter who is a Supernatural JUNKIE and she is totally amazed by it. I gotta say if you have someone even half as addicted to the show as my kid this is a perfect gift for anyreason. She absolutely loves the set and although it took her a minute to actually get the nerve up to start pulling posters out I can say she's honestly pretty much wall papered her room with posters now. Totally amazing and she loves it so I love it!
