**Nagi Yoshida : SURI COLLECTION** before purchasing it in order to gauge whether or not it would be worth my time, and all praised SURI COLLECTION:

Have you ever heard of Suri tribe? They reside in south Sudan and southwestern Ethiopia, and have been dubbed as the most fashionable tribe in the world. Japanese photographer Nagi Yoshida has been taking their photos since 2009, gaining their trust by getting naked as they do to capture these stunning shots of their hidden life. Through the photos of the chaplets of various wild flowers or whimsical body painting from soil, herbs and plants, this book takes you inside the strange and wonderful world of an uncivilized life in Africa.

About the Author Born in 1986, Nagi Yoshida is a self-taught photographer. After she first landed in Ethiopia in 2011, she has been traveling all over the world and capturing images of intimate lives of minor ethnic groups.
