**Prima Games : Tales of Zestiria Collector's Edition Strategy Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tales of Zestiria Collector's Edition Strategy Guide:

2 of 2 people found the following review helpful. Very disappointing guide for a fantastic and fun game By PuppyNoelle This is one of the worst guides I've ever purchased. I absolutely LOVE this game, bought the Collector's

Edition, cosplay multiple characters from it, and the Tales series is one of my all-time favorites, but this guide is a waste of money. The boss battle descriptions were so incredibly vague, and entirely unhelpful. Actually, this guide in general was just vague, and had minimal detail (some of the maps were inaccurate, too); it was over-crammed with art/graphics (which were nice, don't get me wrong, I love pretty art, which Zestiria is full of), but didn't have any meat on the bones. (Side-quest information was almost non-existent in this guide, also). I've kept this guide for all these months (pre-ordered it before release) because I'm a collector, and buy tons of Zestiria (and other Tales) merch, but if you're not a collector like me, then this is not worth your money. Online FAQs/guides are better. If you can read some Japanese, then get the Japanese guide; I purchased that after this one failed to impress, and use that one instead of this one. The Japanese guide is amazing, and so clear and detailed, and has excellent (and accurate!) detailed maps, and even has stat info on all aspects for all characters (as well as info on success rates for snack preparation, etc...). This guide literally reads like the author(s) were forced to play this game just to get the guide put out, and didn't enjoy it at all, which is very disappointing, because it's a visually stunning game that will pull on every heartstring you have! 3 of 3 people found the following review helpful. Not even funny Prima Games...By HunterHoly s\*\*\* this guide is so bad that its not even funny. I mean where do I begin.. I understand if you miss something here and there but seriously the amount of info that was missing was beyond words and the there were so many things that were skipped (side quests and sub events) that would have been helpful If I had known about it! The amount of contradicted info made my head hurt.. Honestly not worth the money.. Do not waste your valuable time and money on this s\*\*\*.. Pretty sure you can find online guides that are worth looking into because they have been written by people who actually care! The only reason I'm giving this a 2 star is because of the art used and gp, but seriously what a waste of paper.EDIT: I changed my mind. It only deserves 1 star rating. Pics attached are an example of this.. I dont even know what to call it anymore.. Sigh...2 of 2 people found the following review helpful. Stay away!!By Jahn VI have to say I'm really disappointed in this guide. I never read much of the walkthrough but I would use the maps as where to go and items to grab. About half way through the game I realized chest and points of interest where missing from the maps in this guide. Than when u get to a certain trial (don't want to spoil anything), they show u one floor of the map and that's it. I read the walkthrough to see what I'm missing and it says something along the lines of first few floors are the same but later floors are a little more challenging. That's it! No maps for them, no items or points of interest. Very poorly done guide. They really got lazy with this guide and with the maps!
