**Fantasy Flight Games : Tannhauser: 2nd Edition Rulebook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tannhauser: 2nd Edition Rulebook:

This book comes with new editions of the core game (which is nice). So if you are buying a new core game, only invest in this book if you need or want a second copy of the rules. If you are playing with friends or have a gaming group, this may be a good extra copy to keep at hand outside the box for review/sharing, or to add to your growing game-rule library.2 of 5 people found the following

The year is 1949, and the first World War rages on... Since its original release, Tannhauser has impressed thousands of players with its deep narrative, engaging and intuitive mechanics, and action-packed gameplay. Now, Fantasy Flight Games is improving on the strong foundations of this remarkable game system with the Tannhauser Revised Edition Rulebook! This nearly 100-page, perfect-bound book is a comprehensive replacement to the original Tannhauser rulebook; it includes revisions to the core game rules, as well as those originally found in the Operation: Novgorod expansion, along with the Wolf, Yula, Gorgei, and Ramirez single figure packs. In short, it covers all the rules players will need for any Tannhauser product currently available. What's more, players who currently own a copy of Tannhauser needn't worry about their game becoming obsolete; the Tannhauser Revised Edition Rulebook utilizes current Tannhauser components, and requires no further purchases.
