Just a little off of the markBy CustomerWhile this book in itself is not so bad, it also doesn't cover the subject of the Thoth Tarot in any particularly deep fashion. I would say that for the Divination purposes the book covers the subject in a descent enough way. But for the serious student who is interested in using the Tarot for Pathworking, or looking for some new perspective and insight on the subject of the Thoth Tarot, this book isn't it.0 of 0 people found the following review helpful. Great companion to the deck.By Cow Town GirlThis is a companion to the Ziegler tarot deck and you need both. I have been amazed on more than one occasion to

have just the right answer pop up to my question, but the best use of this is to use the narratives to connect to your own wisdom about any issue, using the narratives as guidance, not an answer. The interpretations give both a negative and positive answer and often recommend to pull another card. Tarot is a tool that can be used by beginners as well as practitioners. It may not be for everyone, but this deck in particular is useful for beginners. It takes you well beyond the sheet that comes with the card deck. 0 of 0 people found the following review helpful.
