**Tattoofinder : Tattoo Sourcebook** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tattoo Sourcebook:

Not just one variety, but tattoos that would satisfy everyone looking for a tattoo but didn't know where to start. They don't wear you out with tattoo history and things like that, this is where to find a tattoo idea or tattoo design. At the conclusion of the book there is a bibliography that tells you who did the tattoo and where their parlor is located.Which is cool for some people because some parlors are located in or near their town.I think seekers should be careful because not all artists can render all work. Some are not good at shading some are better at realism some do great with color. Make sure they have a fat samples book. Imagine their surprise when you walk in with their sourcebook.I suspect they will know you are serious. And not looking for some Panama City Beach palm tree.1 of 1 people found the following review helpful. Awesome book, lots of beautiful tattoo ideas and ideas

Snore/boreBy lneal1Wow. I thought I was getting a book containing a wide range of tattoos. All the pictured tattoos were old-fashioned and crude. Not one was anything I would get.
