Giorgio M. S. Tavaglione : Tavaglione Stairs of Gold Tarot Deck before purchasing it in order to gauge whether or

not it would be worth my time, and all praised Tavaglione Stairs of Gold Tarot Deck:

2 of 2 people found the following review helpful. This was my first deckBy TarotReaderThis is not a hard deck to use. This has the easiest meaning book that comes with the deck that simplifies meanings short and concise. Don't have to over complicate anything. Just gives you the option. My meaning book is taped and stapled but I still have it. It was my starter deck and I have abused my cards badly since I was 18 and enjoyed many accurate readings and it still is my favorite deck. I am sad that its out of print because the deck is cool. Will probably buy another because I do love this deck. Anyone who likes traditional medieval cards will love this deck.4 of 4 people found the following review helpful. Gorgeous but unwieldy and busyBy Elizabeth A TrianoI used to have this deck, and agree that it is beautiful and incorporates many streams of knowledge. But that can also work to its detriment; one can get very distracted trying to follow it all, and lose the flow of reading or meditation. Also, the cards are quite large, and I found them too awkward to hold. If you are OK with both of those caveats, it's a gorgeous deck!!8 of 9 people found the following review helpful. I love these tarot cardsBy BethI have used various decks in my life but these cards provide such depth through the blending of many systems. Astrology, numerology, knowledge of the mystical meanings of both Sanskrit and Hebrew letters, are all included. These are, above all, my favorite deck when trying to really understand the depth of an issue.

This artistic deck is also called "The Stairs of Gold Tarot." It is complete with an exquisite 80-page instruction booklet, created by Tavaglione using hand-lettered calligraphy.
