Piam Creations : Tech Morph: The Evolution Of Mankind before purchasing it in order to gage whether or not it would be worth my time, and all praised Tech Morph: The Evolution Of Mankind:

TECH MORPH - THE EVOLUTION OF MANKINDThe Wonder Crystal.Star Trek Vital Signs Detector Robots Are In. Cyborgs Are Born. Space Colony. Mind Reader Device. Paranormal. Dungeon Cities. Drone Circuit. Real Plus

Gaming. Third dimension of Reality. Electric Cars. Artificial intelligence. 3D Techno Surgery. Gene Therapy. From Health to Games : The Future is Different. ARTIFICIAL INTELLIGENCE. Emotive. Optics and sensors will enable computers to be emotionally competent (EC) and recognize facial expressions, voice, posture and behavior. Emoticons will be lively, holographic, 3D and life like and interact with you. They will range from choice of gender to figure 'parent , friend, coach and even the pastor." COMPUTERS WILL HAVE MULTIPLE FORMS FORMATS. Haptics Deals with touch sensation and smart applications. If you are playing a computer game and hitting a ball you can feel the impact. Haptics adds the touch and feel dimension to virtual reality and takes it to the level of hyper reality. 3D Sense Augmented Reality 2030. You are driving. You get a call you have been waiting for. You connect the call through voice command Connect. An image looms up. Its your friend. Live. The future is exciting and I cant wait to get there! 2030. You are in Alsaka on an adventure to enter into the Guinness book of world records. Fastest dog ski on the highest altitude. You and your team are twisting on the sledge at the edge of an icy ravine. As you do it against all odds back home your family watches as you break all records. They feel like they were there with you. Live action 3D sensory feel. Gaming Image on a laptop. Image in the space in front of you. The real? It will be like an audio visual hallucination. Devices on your body will connect you to the game environment and take total immersion to the next level. 3D games morph into virtual reality. Touch the games character. Feel the situation. Physical sensations integrate with the game and take you to a new high never before experienced. The possibilities are mind boggling. What do you want to experience decides what games are developed. The range of experiences will spawn game genres all the way from adventure, fantasy, surreal to romantic and drama. Are you in the Swiss Alps or scuba diving in a marine reef with strange sea creatures and you want this in your 3D- virtual reality game. Just wish and it will happen. Real surroundings can be input into game environment. Going forward. You can have a character look, act and be like you. Make him a saviour or an adventurer. Design your own game, tell your own story and what more make it available for sale. WE WILL NOT LOOK AND BE THE SAME. IN THE FUTURE. Customers are the indicators, managers are the catalysts and technology is the driver of change. If any of this is weak then you have a weak chain.
