Francois Baudot : The Allure Of Men before purchasing it in order to gage whether or not it would be worth my time, and all praised The Allure Of Men:

A collection of the most desired, envied, and debonair men in history. From the frock coats of Gainsborough's portraits to city workers' two-piece suits, men and their fashion have made a vital contribution to our collective notion of style. One of France's leading fashion and style specialists, author Franois Baudot juxtaposes paintings and photographs of famous and lesser-known figures dating back almost 200 years, embodying centuries of elegance and style.
